LifeProof Vision

Vehicle Windscreen & Glass Treatment

Vehicle Glass Treatment System

Why choose Renault LifeProof Vision treatment?

When examined under a microscope, the surface of your vehicle's glass has a rough cross-section consisting of peaks and valleys. With untreated glass, hard to remove road films and other contaminants get trapped and build up on the glass surface. In poor weather conditions visibility can be greatly reduced due to water not clearing off the glass and in the winter months, frost, ice and snow are difficult to remove without having to use de-icing products on the glass surface.

LifeProof Vision is a true all season glass treatment system that greatly increases driver visibility in all weather conditions.

LifeProof Vision Treatment

How does Renault LifeProof Vision work?

When applied to your vehicle's windscreen and other glass surfaces, LifeProof Vision's advanced formulation interlocks its molecular structure to the vehicle's glass, sealing the microscopic pores, creating a highly durable super-hydrophobic protective layer between the glass and the elements.

After your vehicle's glass surfaces have been treated with LifeProof Vision, rain beads up and rolls off the glass surface, dirt is less able to stick, insects and ice are easier to remove. Smears caused by wiper blades are all but eliminated and wiper blades glide noiselessly over the smooth coating. No matter what the conditions are outside, LifeProof Vision glass treatment helps keep your windscreen and other glass surfaces clearer.

"Our finest made windscreen and glass treatment system is now available.

Following years of extensive research and testing, your new or pre-owned vehicle will benefit from the advancements in glass treatment technology"

Benefits of Renault LifeProof Vision

Water Repellent

LifeProof Vision is super-hydrophobic which makes rain just bounce off your windscreen.

Better Visibility

LifeProof Vision super-hydrophobic properties greatly improves driver visibility in all weather conditions.

Bug Protection

LifeProof Vision treatment makes the task of removing bug matter from your windscreen a lot easier.

Frost Resistant

With LifeProof Vision snow and ice can be easily removed from glass surfaces.

Longevity

LifeProof Vision is highly durable and will provide up to 2 years* of protection.

Easy Maintenance

Maintain optimum performance by regularly cleaning the windscreen and wiper blades with a soft vehicle shampoo, check wiper blade condition and replace if worn.

*To gain up to 2 years protection, the product MUST be applied in accordance with Supremecoat's application guidelines. Upon application an authenticity certificate will be supplied to the vehicles keeper.
